## FIREMEN AID MASONS

In Big Bazaar in Armory Hall Tonight—Lady's Orchestra one of the Big Features Last Night—Attendance Continues Good.

The attendance at the Masonic Bazaar last night was large as usual. Although it has now been in continuance for nearly a week there does not appear to have been any diminution in the activity of the corps of workers who are contributing so greatly both to the financial and social success of the affair. Last night, designated as "Grotto" night, was featured by the appearance of a Ladies' Band, led by Miss Varney, of Washington, which rendered a very delightful and varied program.

Interest still continues in the loving cup to be presented to the most popular railroad man at the fair, and which was donated by President Fairfax Harrison, of the Southern Railway. To date the vote stands:

L. O. Hardin, 129; E. F. Ticer, 100; E. H. Kemper, 47; A. J. Ross, 41; S. L. McEstes, 19; R. W. Golds-worthy, 54; K. L. Lambert, 22; W. L. Finks, 13; E. Fuller, 9; C. E. Dare, 4; W. H. F. Finkle, 4; C. R. Keith, 2; J. W. Gerber, 1; J. T. Stephenson, 1.

At the Shrine's Booth Mr. H. C. Aaron, won the on pound box of Brownley's Candy and Mr. A. M. Sherwood was awarded the shaving set.

The ladies in charge of the various booths are making a strenuous effort to have a good showing for tonight when it is expected that there will be a record attendance.

The dancing in the latter part of each evening is attracting many young people to the Bazaar and is proving one of most popular and enjoyable features.

Tonight is to be Firemen's Night and it is expected, from advice received, that practically the entire contingent of the fire-fighters will be on hand to take their part in making the Bazaar a success.

During the remainder of the Bazaar the supper served by the ladies of Alexandria—Washington Lodge will be discontinued and a lunch substituted. The noon-day lunch will be continued, however, and will be served from 12:30 to 2 o'clock.

### MISSING COUPLE CAUGHT

Man who Left Alexandria With Girl May Face White Slave Charge

Charles Baum, and Margarite Eareheart, who have been sought by Alexandria relatives and friends during the past two months, have been located at last. The couple are now in Atlanta, Ga., in charge of the federal authorities, who are considering the advisability of urging the charge of white slavery against Baum. The latter is 22 years old, and is from Baltimore. Miss Eareheart, is 16. She is from this city. The young woman told the authorities in Atlanta that Baum brought her to Atlanta from Alexandria on a motorcycle. Baum, who has a wife and baby in Baltimore said that the girl dared him to run away with her and that he accepted the dare.

As was stated in the Gazette when the elopement was discovered, the young woman in the case is a daughter of Mrs. Harry L. Litchford, of 1105 Duke street, and J. W. Eareheart, of Hagerstown, Md.

The girl disappeared from her home in this city on the afternoon of August 21. It was stated at the time that she was in the company of Chas. H. Baum, of Baltimore, and left with Baum for a ride on a motorcycle.

After waiting six days for the girl to return, the Alexandria police were requested to institute a search.

In a letter written recently by the mother to the Richmond police, asking them to institute search for the girl, the mother is quoted as saying: "The suspense is awful, and I can hardly stand it much longer. I am satisfied she was kidnapped, because she seemed perfectly satisfied at home."

### MYSTERIOUS DEATH

Body of Colored Man Discovered on Southern Tracks by Switching Crew

The crew operating Southern Railway trains on Union street made a ghastly discovery at the intersection of Wolfe and Union streets between ten and eleven o'clock last night. The body of a colored man, horribly mutilated, was found between the rails. There were indications to show that the body had been dragged some distance by the train. The head was crushed and one of the legs severed. No one could identify the unfortunate man, and the station house was notified of the occurrence. Officers soon repaired to the scene, and the remains were taken to Wheatley's undertaking establishment.

There was every reason to believe that the man had been proceeding along the track in a northerly direction and had fallen on the rails. In the direction of the Wilkes street tunnel there were evidences that a man under the influence of liquor had been on the curve leading from Wilkes to Wolfe street.

Doctor T. Marshall Jones, the Coroner, held an inquest over the remains at eleven o'clock this morning. The jury was composed of A. A. Paul (foreman), J. A. Marshall, Lewellyn Dyson, John W. Garner, J. H. Fisher and John McCuen.

After examining witnesses, including several colored persons, none of whom could identify the deceased, the jury returned the following verdict:

"That said unknown colored man came to his death by being run over by a shifting locomotive of the Southern Railway Company about 10:20 o'clock p. m. October 13, 1916, on Union street, south of Wolfe. We, the jury, find that no flagman preceded the engine from the evidence of witnesses before the jury."

Two negroes who were in jail this summer for some offense say they are confident the remains are those of a negro named Joe Brown, one of their fellow prisoners. Brown was arrested last summer for cutting a negro named "Hoggy" Jackson. The latter left the city and Brown was finally released.

## ANNE LEE MEMORIAL

Is Presented to State Convention of Daughters of Confederacy at Lynchburg by Mrs. L. E. Uhler as Worthy of aid.

Mrs. Lycurgus E. Uhler, first vice-president of the Anne Lee Memorial Home for the Aged, recently opened in Alexandria, before the Convention of the United Daughters of the Confederacy, now in session in Lynchburg, on Wednesday night delivered a stirring and powerful address in behalf of the Home.

Mrs. Uhler has asked that the State Division appropriate \$1,000 to furnish and endow a room in the Home to be used for the widow or daughter of a Confederate Veteran who can be sent here from any section of Virginia.

Mrs. Uhler's address, in part, follows: Madam President and Daughters of the Confederacy:

As first vice president of the Board of Governors of the Anne Lee Memorial Home for the Aged it is my privilege and great pleasure to speak to you today on a subject which must appeal to every Southern woman. A memorial to Anne Carter Lee, the mother of Virginia's illustrious soldier and statesman, General Robert Edward Lee, whose brave deeds, noble patriotism and honorable record won for him undying fame and the love and devotion of a grateful Confederacy. Of his mother General Lee once said "All I am I owe to my mother," and General Fitzhugh Lee writes of her, "I have always heard that to her noble influence the perfect formation of General Lee's character was due." Thus to Anne Carter Lee the South owes her illustrious leader.

About seventeen years ago the women of Alexandria, prompted by a desire to commemorate the virtues of the mother of their beloved general, formed an association, "The Anne Lee Memorial Association," of which Mrs. L. Wilbur Reid, now president of the Seventeenth Virginia Regiment, chapter U. D. C., of Alexandria, was president. Sufficient funds were not raised at that time for a suitable memorial and the money was invested. In March, 1915, the work was again taken up, a board of governors elected and plans formed to make the memorial a home of the aged.

No more suitable place for this memorial could be selected than Alexandria; Anne Lee's home was there, she was a member of Old Christ Church and but a few miles away at Ravensworth her remains lie buried. And no more beautiful tribute to her memory than the care of the aged, who are without home and loved ones to brighten their few remaining years.

It was in Alexandria in the yard of Old Christ Church, of which he was at that time a member, and vestryman, that General Lee announced his determination to cast his lot with his native State in the pending conflict, stating his purpose to leave next day to join the army of the Confederacy and offer his sword in defence of his native State.

We have purchased the old colonial home of the Herbert family in the historic section of our city, within a few steps of the Carlyle House, Braddock Heights and General Washington's headquarters, ideal for our purpose, with wonderful possibilities but very much out of repair. When all improvements are completed we will accommodate from 20 to 25 inmates.

The Seventeenth Virginia Regiment chapter through the untiring energy of our president, Mrs. L. Wilbur Reid, has erected a colossal portico and entrance at a cost of \$700, and on the ground floor is a beautifully furnished reception room which is also a gift of the Seventeenth chapter. Checks have been sent to the chairman of the Finance Committee from the "New York chapter" and "The Mary Mildred Sullivan chapter of New York" and also Maryland Chapter of Baltimore and Fairfax chapter, of Fairfax. And we most earnestly solicit the co-operation of all chapters.

## PAFF CO'S SHOES BOOST

Alexandria in every Section of the Country—Output of 5000 Pairs per Week is Distributed From Coast to Coast

From the French Market in New Orleans to the sardine factories in Lubec, Maine, and from the Golden Gate to Hell Gate, little toddlers wear the shoes made in Alexandria, by the Paff Shoe Company, the firm being composed of Charles Bendheim, Judge Louis C. Barley and Congressman C. C. Carlin. These three men, through their investments in the company, are carrying the name of Alexandria into practically every city and village of the United States. And because of the fact that the Paff shoes are known as good shoes they are making the name of Alexandria well and favorably known.

Turning Five Thousand Pairs of Shoes a Week.

The average output of the Paff Shoe Company is 5,000 pairs of shoes per week. Throughout the South they are sold direct to the trade by a corps of sixteen salesmen who work from California to the Atlantic coast. In the North the output of the factory is handled through jobbers. Since the organization of the company there has been a steady demand for its output as quality has always been one of the prime considerations of its owners and officials.

The factory, a large square brick building is located on south Washington street a block below the tannery of C. C. Smoot and Sons. Although it has been standing some years, it has all the modern improvements in the shape of plenty of large windows, wide floor space, high ceilings and adequate heating and ventilating systems. The effect of these is seen in the manner and appearance of the hundred and more men and women, most of them young, who comprise the working force of the factory.

### Alexandrians Hold World Record.

In the plant are many of the very latest machines known to the shoe world. There are ingenious, almost human fingered machines, with delicate steel mechanisms which drive seven and nine tacks home in an instant and with a precision that would be impossible to human fingers. That the men operating these take a pride in their work was recently amply demonstrated when it was found that the force engaged in the work of turning the shoes, for example, achieved what is considered to be a world's record. It has, in any event, been so declared in the journal of the United Shoe Machinery Company, published in Boston. The nine men composing the crew of the pulling-over machine, which does away with the old lasting process, handled 1008 pairs of shoes in nine hours. This record has not yet been beaten.

There is an old joke about paper in shoes. Just now the shoe men say that such paper as they have to use, but not to go in the shoes, as is popularly supposed, has advanced something like one hundred per cent. And leather! At mention of this they simply throw up their hands.

### Leather From All Parts of the World.

It has probably not entered into the minds of the great majority of people that any other than the skin of the cow, or maybe the kid, enters into the composition of their shoes. They do not know that they may be walking about in leather that came from India or China, or the Russian steppes or the Scotch hills, or the mountain passes of little known Persia.

As a matter of fact colt and sheep and goat, in addition to calf and cow-skins, are used in the various grades of shoes made in the Paff factory. And one of the causes of the scarcity and high price of leather just now lies in the fact that many huge cargoes from Europe and points in Asia have been held up in the warehouses of England and the steamers which were carrying them deflected to more warlike purposes. And so, because of the insufficient supply of leather for certain special kinds of shoes, there is ample excuse for the advance in the price of footwear, at least.
